STATE CLEARINGHOUSE

NEWSLETTER

August 1 through 15, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period August 1 through 15, **2000**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Rob Hill (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Date: August 21, 2000

To: All CEQA Lead Agencies

From: Terry Roberts, Senior Planner

Re: Filing of Notices of Determination with the State Clearinghouse

The State CEQA Guidelines identify the specific circumstances under which Lead Agencies must submit their draft Environmental Impact Reports (EIRs), proposed Negative Declarations (NDs), and Notices of Determination (NODs) to the State Clearinghouse. In all cases these documents must be submitted to the State Clearinghouse if there is any state agency with discretionary approval over the subject project, such as a permit, lease, or funding approval. A NOD must be filed with the State Clearinghouse within 5 business days of project approval for which a draft EIR or proposed ND was prepared and for which a state agency has approval authority.¹ As a general rule, if the EIR or ND was submitted to the State Clearinghouse, the NOD should also be submitted to the State Clearinghouse upon project approval.

Our records indicate that many Lead Agencies submit NODs to the State Clearinghouse without previously submitting the underlying EIR or ND for state agency review. The State Clearinghouse believes there are two reasons Lead Agencies may be submitting NODs but not the underlying environmental documents.

1. Lead Agencies may be sending NODs to the State Clearinghouse unnecessarily.

If the project does not involve a state agency (either as a Lead Agency or Responsible Agency), the NOD should not be submitted to the State Clearinghouse. Unnecessary filing of NODs creates an administrative burden on both the Clearinghouse and the Lead Agency. The State Clearinghouse has technical support staff who can answer Lead Agency questions, either by email or phone, about whether a particular NOD must be filed with the Clearinghouse.

¹ References: CEQA Guidelines Sections 15205, 15206, 15075, 15094. See also, OPR Memorandum dated February 1, 2000, available from the State Clearinghouse website.

2. Lead Agencies may be filing their NODs only upon notification that a state permit will not be approved without evidence that the NOD was filed with the State Clearinghouse.

Some Lead Agencies report to Clearinghouse staff that they are purposefully filing only NODs, and not the underlying environmental documents. Other Lead Agencies may not realize until the NOD stage that the underlying environmental documents should have been submitted to the Clearinghouse. In either case, state responsible agencies, seeing the filed NOD, are led to incorrectly believe that the Lead Agency properly fulfilled its CEQA review requirements, and that the responsible agencies had the opportunity to review the EIR or ND prior to project approval. To educate Lead Agencies about their responsibilities when filing NODs, the Clearinghouse will send letters to Lead Agencies upon the receipt of a NOD for which no underlying environmental document was received. As a service to state responsible agencies, the Clearinghouse will begin flagging NODs for which the underlying environmental documents were not submitted to the State Clearinghouse.

The State Clearinghouse emphasizes the importance of submitting your draft EIR or proposed ND to this office for state agency review prior to filing the NOD on the project. If you have questions about the criteria for submission of environmental documents to the State Clearinghouse, please contact us at the following e-mail address or telephone number.

e-mail address: state.clearinghouse@opr.ca.gov
Telephone Number: (916) 445-0613

You may also view information on this subject at our website:
www.opr.ca.gov/clearinghouse.html. Select either “Announcements and Technical Advisories” or “State Clearinghouse Handbook” for information on how to properly file your NOD and the criteria for submitting an EIR or ND to the State Clearinghouse.

Federal Notices

Intergovernmental Review Notices (August 1st – 15th, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: U.S. Department of the Interior, Bureau of Reclamation

CONTACT: Jeffrey S. McCracken

TELEPHONE: (916) 978-5100

ADDRESS: Mid-Pacific Regional Office
2800 Cottage Way
Sacramento, CA 95825-1898

DESCRIPTION:

Lowell Ploss has been named Deputy Regional Director for the Mid-Pacific Region. He will provide managerial direction for CALFED, the Region's Special Projects Office and Construction Office, and all divisions and offices located at the Federal Building on Cottage Way in Sacramento. Ploss assumed his new position on August 14, 2000.

Washington, D.C. 20426

DESCRIPTION:

On February 26, 1993, Creamer & Noble Energy, Inc. filed an application for license to construct, operate, and maintain the Crystal Creek Pumped Storage Project in San Bernadino, California. Section 401 of the Clean Water Act prohibits FERC from issuing a hydropower license until water quality certification is either granted or waived. Because Creamer failed to appeal the denial of its July 25, 1994 request for water quality certification

and repeatedly failed to reapply for such certification, Creamer's license application is being dismissed.

ADDRESS: Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, DC 20426

DESCRIPTION:

On June 19, 2000, Carlsbad Municipal Water District (applicant) filed a Surrender of Exemption for the Fred Maerkle Hydroelectric Project (no. 9902-005) in San Diego County. The project consisted of a powerhouse containing a single turbine-generator unit with a rated capacity of 60 kilowatts under a head of 325 feet. The applicant requests to surrender the exemption for this constructed project because the project facilities have been removed and there are no plans to install new equipment, or in any way use the site for energy generation in conjunction with the existing exemption.

Washington, DC 20246

DESCRIPTION:

On June 12, 1998, the Southern California Edison Company filed a hydroelectric application with the Commission for the Lower Tule River Hydroelectric Project. The project is estimated to generate an average of 17.9 million kWh annually. The dam and existing project facilities are owned by the applicant. The filing may be viewed on the web at www.ferc.fed.us/online/rims.htm. The application is ready for environmental analysis at this time, and the Commission is requesting comments on the project.

CONTACT: John K. Novak

TELEPHONE: (202) 219-2828

ADDRESS: Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, D.C. 20426

DESCRIPTION:

Southern California Edison filed plans and specifications for resurfacing the Fairview Dam to repair spalled concrete and seal the surface with a protective waterproof coating. In order to conduct this work in dry conditions, Edison will divert the minimum flow released from the dam to a point about 200 feet downstream of the dam. Edison proposes to start activities in late August 2000 and expects to take about 8-10 weeks. The Fairview dam is listed on the National Register of Historic Places.

Washington, D.C. 20426

DESCRIPTION:

On August 27, 1999, Larry Hensley, licensee of the 29 Mile Creek Project No. 7931, and Eugene Mark Souza jointly filed an application for approval of the transfer of the project license from Mr. Hensley to Mr. Souza. On February 9, 2000, the licensee filed a request for an extension of time to comply with article 301 of the project license. The partially constructed 30-kW project occupies lands within the El Dorado National Forest in El Dorado County. Transfer of the license for this project is consistent with the Commission's regulations and is in the public interest. The Commission orders an extension to August 31, 2002.

<u>Documents Received on Tuesday, August 01, 2000</u>			
2000082004	Use Permit Application 2000-17-Mid Valley Large Animal Hospital Stanislaus County Turlock--Stanislaus Request to build veterinary office/warehouse/surgical complex on 19.27 acres.	CON	08/14/2000
2000082005	1250 Bayshore Highway, Burlingame-Environmental Review of Ground Floor Expansion of an Existing Hotel (Ramada Inn) Burlingame, City of Burlingame--San Mateo This project proposes construction of a one-story addition to an existing 3-story, 146-room hotel located at 1250 Bayshore Highway. The proposal includes converting six existing hotel guest rooms (2,143 SF) and infilling between the existing hotel and the freestanding restaurant on the site. The converted and new square footage would be used to add an exercise room, meeting rooms, restrooms, and a 1386 SF lap pool/exercise area. The proposed ground floor addition totals, 5,602 SF. Currently, both sides of Easton Creek and the shoreline are protected by concrete rip-rap, the top of which is approximately 8 feet above MSL. Groups of trees grow along the bay side top of bank. The applicant is proposing to construct a sea wall at the property line along the bay shoreline, which will also serve as a retaining wall to raise the new public access pathway to an elevation 10 feet above MSL. The property line is 3' to 20' inboard of the 5' MSL line. The sea wall could provide erosion control along the shoreline, for the public access pathway, and for the development on site in the event of continued erosion along the adjacent shore. The outlet of Easton Creek, which drains the coastal hills, borders one side of the site. The proposed sea wall extends approximately 280' along the rear property line adjacent to San Francisco Bay, from the northwest corner of the lot to edge of Easton creek, where it will tie into the existing creek bank. The sea wall is approximately 12 inches thick and extends approximately eight feet below the new grade elevation (elevation 10 feet above MSL). As proposed, the sea wall does not extend above the fill which will be placed on the landward side. The toe of the wall will extend approximately 3'-6" under the fill.	CON	08/11/2000
2000031100	Reedley Specific Plan Reedley, City of Reedley--Fresno The Reedley Specific Plan (RSP) applies to approximately 1,285 acres of land located mostly outside the existing city limits, but within the Reedley Sphere of Influence (Reedley's 20-year growth boundary and the line the delineates where annexations may occur). The Plan is intended to implement a number of Livable Cities/Smart Growth development principles to produce new development that responds to a number of concerns.	EIR	09/14/2000

2000082002	City of San Ramon General Plan San Ramon, City of San Ramon--Contra Costa The San Ramon General Plan will be presented to the city's voters following approval by a General Plan Review Commission (GPRC). The GPRC, a thirty-three member body appointed by the City Council, was established by Measure G, an initiative passed by the San Ramon voters in November, 1999. Measure G has twin mandates: To draft a new General Plan, taking into consideration the development of urban growth boundaries to encourage smart growth within the urban growth boundary by promoting infill development and discouraging urban sprawl by providing mixed use of commercial, retail, education, recreation and housing. To prepare and recommend and plan for the acquisition of ridgeline areas and agricultural lands contiguous to the City of San Ramon to be preserved for open space purposes in perpetuity.	NOP	08/30/2000
2000082006	Stonewood Estates Condominiums Tahoe Regional Planning Agency --Nevada The proposed project consists of two separate components. The first component involves the construction of 26 residential units, which will be contained in five detached buildings. Each building will have two floors of living area and an underground parking garage on the first level. On-site common area facilities will include a tennis court pool/spa and children's play area. The second project component involves the subdivision and conversion of those units into 26-condominium style single-family dwellings with common area. Access to the units will be from a twenty foot-wide common drive that will meander through the site. Grading will involve excavations ranging from two to twelve feet in depth and areas of recontouring to achieve desired finished grades around the building footprint. To analyze the potential environmental effects of the proposed project, the applicant is proposing the an Environmental Impact Statement (EIS) be prepared.	NOP	08/30/2000
1996072009	Patterson Vineyard Timberland Conversion (Amended) Forestry and Fire Protection, Department of NAPA--NAPA This project consists of amending approved Timberland Conversion Permit number 402 for exemption from Forest Practice tree stocking requirements. This project adds six acres to an existing vineyard. Planting of vineyard crops is limited to slopes less than 5 percent. No commercial harvest of timber is planned. No watercourses are on the property.	Neg	08/30/2000

1996052098	Edenvale Redevelopment Plan-Policy Revision San Jose, City of San Jose--Santa Clara SEIR--An Environmental Impact Report was prepared for the Edenvale Redevelopment Project in March 2000, which addressed the impacts of developing 4.8 million square feet of industrial uses in the New Edenvale area, subject to certain development restrictions identified in the proposed Area Development Policy, Known as "development triggers." The San Jose Redevelopment Agency is currently proposing to revise the Area Development Policy to Allow up to 5 million square feet of new industrial uses and to modify the development triggers to allow industrial development to proceed prior to approval and completion of the identified "gateway" transportation improvements. These improvements are dependent on outside agency approvals. Construction of a T-Bridge extending from Silver Creek Valley Road across the creek channel to the southern bank and construction of a new 24-inch underground storm drain extending to a new outfall under the existing Silver Creek Valley Road bridge. SAA #1355-99	NOP	08/31/2000
2000081006	East Campus Student Apartments University of California, Irvine Irvine--Orange The proposed Project would provide apartments, including community facilities, to accommodate approximately 3,000 undergraduate and graduate students at the University of California, Irvine. Additional improvements include the extension of Arroyo Drive from California Avenue along the western perimeter of the Project site; a new entry road connecting Culver Drive to the extension of Arroyo Drive; off-site landscape improvements; and off-site utility extensions and storm drainage improvements.	NOP	08/31/2000
2000072099	American River Non Motorized Boat Improvements Sacramento County --Sacramento The ramps will be constructed of steel reinforced concrete, with erosion-resistant cutoff walls and a grooved surface to improve vehicle and pedestrian traction. The area under and surrounding the new ramps will be graded to the proper angle (between 12 and 15 degrees), and at least six inches of compacted aggregate base will be installed as a base course. The concrete ramps will be 16 feet wide	Neg	08/31/2000

2000081007	Crestline-Lake Arrowhead Water Agency Snow Valley Annexation and Facility Improvements Crestline-Lake Arrowhead Water Agency --San Bernardino The proposed project consists of the annexation of Snow Valley Ski Resort into Crestline-Lake Arrowhead Water Agency's (CLAWA) service district, minor improvements to an existing CLAWA booster station, and the construction of an approximately 2.3 mile water pipeline that will provide Snow Valley Ski Resort with interruptible service at a rate of approximately 350 gallons per minute (gpm).	Neg	09/01/2000
2000081009	Koi Pond Renovation Plumbing Project California State University Trustees Long Beach--Los Angeles The project would involve improvements to the plumbing system servicing the Koi Pond at the Earl Burns Miller Japanese Garden, at CSULB. Currently, filtered backwash water from the Koi Pond discharges into the nearby storm drain along Earl Warren Drive, with final discharge into the Pacific Ocean. According to the Regional Water Quality Control Board, the water discharged into this storm drain does not meet water quality standards and therefore secondary treatment of this water is necessary. The installation of a new force main wastewater discharge pipeline is proposed to route backwash from the pond filters to an existing 24-inch sewer trunk line system located south of the Japanese Garden. Water would then be routed to the nearest wastewater treatment facility for secondary treatment prior to being released into the Pacific Ocean.	Neg	09/01/2000

1999032054	GPA 98-01, ZA 98-08, PM 98-13 and Use Permit 98-07, Flying "J" Travel Plaza EIR Shasta County Redding--Shasta The General Plan Land Use Designation for the site is the Part Time Agricultural-croplands/grazing (A-cg) on the northerly 20.2 acres which permits part time agricultural uses and a residential use on a five-acre minimum parcel. The southerly 5.5 acres is located in a Commercial (C) General Plan Land Use Designation. The zoning for the northerly portion of the site is in the Limited Agricultural district combined with the Restrictive Flood (A-1-F-2) district, with the southerly portion of the site in a commercially oriented Planned Development district combined with the Restrictive Flood (PD-F-2) district.	EIR	09/18/2000
2000012082	Long-Term Solid Waste Disposal Facility Project Fremont, City of Fremont--Alameda To resolve long-term resident and business solid waste disposal demands, the City of Fremont is in the process of evaluating various scenarios. The scenarios involve either the expansion of the existing landfilling activity at the Tri-Cities recycling and Disposal Facility (TCRDF) or establishment of a Transfer Station (TS)/Materials Recovery Facility (MRF). The landfill expansion scenario under consideration at the TCRDF is an approximate 72-acre landfill expansion to 150 feet mean sea level (MSL). This scenario would expand the landfill into areas south of the existing operations. Three potential TS/MRF locations are being considered in the City of Fremont: Old Warm Springs Boulevard and Grimmer Boulevard, Boscell Road, and at the TCRDF site. Therefore, the project description addresses four potential scenarios.	EIR	09/18/2000
2000032015	Storm Drainage Master Plan Supplement No. 1 (Westside Channel Outfall System) Tracy, City of Tracy--San Joaquin The proposed project involves construction of storm drainage conveyance infrastructure and open channels totaling approximately 2 linear miles, repairs and improvements to six capacity "bottlenecks" along the Westside Irrigation District Main Drain, and the future construction of or modifications to six water detention basins (five of which are upstream of Eleventh Street) totaling approximately 116 acres. 2000084002	Proposed U.S. Penitentiary U.S. Department of Justice Lompoc--Santa Barbara The Federal Bureau of Prisons (Bureau) proposes to construct and operate a new high-security United States Penitentiary (USP) and ancillary structures on one of three sites located on the grounds of the Bureau's existing correctional facilities located in Lompoc, California. The new USP would house approximately 1,000 inmates. The construction of a new USP would create additional high-security bed space while allowing for the renovation and conversion of the existing USP to a medium-security facility. In order to provide a workforce to maintain the grounds of the new USP, the existing Federal Prison Camp (FPC) would be expanded by approximately 100 inmates. The addition of ancillary facilities such as	EIS	09/18/2000

1998082040	Pacific Hacienda San Carlos, City of San Carlos--San Mateo The revised application of Chris Wuthmann of Pacific Peninsula Group for Conditional Use Permit, Vesting Tentative Map and Grading and Dirt Haul Approval for purposes of preserving four existing buildings along San Carlos Avenue and removing two existing buildings to their south within an existing 14-unit apartment complex known as the "Hacienda Garden Apartments," and creating a courtyard area behind the proposed buildings to be preserved and new construction, constructing one 73 unit multi-family dwelling unit building with one level of underground parking adjacent to Walnut Street at 1315 San Carlos Avenue, 625 Elm Street, 649 Elm Street and 610 Walnut Street (APN 050-131-200, 050-131-190, and 050-131-180).	NOD	
1998111046	Route 7 Expressway Extension, Imperial County Caltrans #11 --Imperial On State Route (SR) 7 Construct 4-Lane Divided Expressway with limited access from SR 98 to Interstate 8, a distance of approximately 8.9 km (5.5 miles).	NOD	
1999072057	Application to Appropriate Water No. 29890 State Water Resources Control Board, Division of Water Rights Somerset--El Dorado On January 22, 1991, water right application 29890 was filed in order to seek a right to appropriate 42 acre-feet (af) of water from Perry Creek tributary to Middle Fork Cosumnes River thence Cosumnes River in El Dorado County. Mr. Fred Wilkinson requests the right to appropriate 42 af of water between December 15 of each year through April 15 of the succeeding year. Water will be stored in an onstream reservoir and the place of use will be the reservoir. Stored water will be used for recreation, fire protection, and wildlife enhancement. The project is located 11 miles northeast of Plymouth, CA.	NOD	
1999101015	San Vicente Wastewater Treatment Plant Expansion Ramona Municipal Water District Ramona--San Diego Proposes to alter two streambeds (one intermittent and one perennial) to construct a 93 acre-foot pond (third storage pond) to storage tertiary treated effluent from the San Vicente Wastewater Treatment Plant, together with a 900 foot long "intermittent stream" diversion chanel, 15-foot wide maintenance access road with culvert(s), and one underground 12-inch water pipeline, all associated with the expansion of wastewater treatment capacity from 0.6 mgd to 0.8 mgd.	NOD	
1999121065	Lake Mathews Underdrain Reconstruction and Weed Abatement Program Metropolitan Water District of Southern California Riverside--Riverside The project consists of the replacement of existing drainage facilities and the implementation of a bi-annual weed abatement program to prevent future root damage to the new drainage facility at the Lake Mathews Dam. 1999122096	<p>AT&T Dunnigan to Manchester Fiber Optic Cable Replacement Project Mendocino County Dunnigan, Manchester, Cloverdale, Santa Rosa--Mendocino, Lake, Napa, Yolo, Sonoma</p> <p>The applicant proposes to install fiber optic cable from the Manchester Radio Facility to the Dunnigan Radio Facility, with a spur route to be constructed from the Cloverdale Radio Facility to Santa Rosa. The proposed fiber optic route will trench across 32 drainages in Lake County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (#R3-2000-0554) pursuant to Section 1601 of the Fish and Game Code to the project applicant, Kevin Lorenzini/AT&T Corporation.</p>	NOD	
1999122097	<p>Applications to Appropriate Water No. 30490 & 30491 State Water Resources Control Board, Division of Water Rights Saint Helena--Napa</p> <p>Both applications use the same Points of Diversion (PODs) and serve the same Place of Use, 40 acres of vineyard (34 planted). The dam at POD#1 forms an onstream reservoir (built 1972; approx. 49 acre-ft.) on one of the unnamed streams. At POD#2, water is diverted from an Unnamed Stream channel into an artificial earthen channel through a 12-in-diameter culvert approximately 800 ft. long with a capacity of 2.99 cubic-ft./second. Application 30490 requests diversion to storage of up to 49 acre-ft. per annum, collected from both POD#1 and POD#2 between Dec. 15 and Mar. 31. The Purpose of Use of stored water include frost protection, heat control, stock watering, fire protection, irrigation, and incidental recreation. Application 30491 requests direct diversion of up to 35 acre-ft. per annum between Mar. 1-31 for frost protection. POD#2 is on an Unnamed Stream that, in its lower reaches near the Napa River, supports steelhead trout (<i>Oncorhynchus mykiss</i>).</p>	NOD	
2000032092	<p>Levee Reconstruction on the Eel River Wildlife Area Fish & Game #1 Loleta--Humboldt</p> <p>The Department of Fish and Game has completed a Mitigated Negative Declaration for levee construction on the Eel River Wildlife Area. Project activities include enhancement of existing levees and installation of water control structures. The project will allow for management of freshwater wetlands in close proximity to tidal wetlands, providing an important diversity in habitat types. The project is located on the Eel River Wildlife Area near the end of Table Bluff Road, Loleta, Humboldt County, California.</p>	NOD	
2000042033	<p>Petaluma Marsh Expansion Project Caltrans #4 Novato--Marin</p> <p>The Project will restore approximately 102 acres of diked bayland to tidal marsh habitat incorporating tidal sloughs, tidal ponds, and pickleweed/cordgrass marshplain. Tidal action will be restored by grading down existing levees and cutting breaches in the levees, creating channels to the interior portions of the site. Tidal ponds will be constructed using fill graded from the existing levees.</p>	NOD

2000051090	Wye Road Improvement Project Bishop, City of Bishop--Inyo Right-of-Way acquisition; construction of a storm drain system; sidewalk, curb and gutter; street lighting and re-paving.	NOD	
2000052059	Whitehall Subdivision Chico, City of Chico--Butte Vesting tentative subdivision map and a planned development of a 6.5 acre parcel with 14 single family lots.	NOD	
2000061100	Ahwahnee CDF Forest Fire Station Replacement Project Forestry and Fire Protection, Department of Ahwahnee--Madera The proposed project consists of the aquisition of a standard CDF two-engine Forest Fire Station, including a twelve-person barracks/mess hall, a 3-bay apparatus building, ranger unit facility, a fuel/oil storage building, a 2-above gasoline storage tanks, septic system, hose racks maintenance facility, paving and landscaping. The functions of the existing Ahwahnee CDF Forest Station would be transferred to the proposed project after completion. This project is necessary because the existing Ahwahnee CDF Forest Fire Station has deteriorated and no longer meets current public Safety Codes.	NOD	
2000062081	Willits Environmental Remediation Trust, Former Abex Corp. , Remco Hydraulics Facility Pilot Testing of In-Situ Reduction of Chromium in Contaminated Groundwater Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Willits--Mendocino The project is a pilot study designed to reduce hexavalent chromium and remediate volatile organic compounds and petroleum hydrocarbons in groundwater. The purpose of the project is to assess the effectiveness of in-situ (in place) reduction treatment under the existing site conditions. The pilot test program is designed to generate site-specific data concerning the effectiveness of chromium remediation using two different reducing processes, and to provide information regarding the feasibility of a full-scale implementation of the in-situ reduction technology. In addition, a secondary evaluation of the effect of the in-situ reduction technology on the observed concentrations of volatile organic compounds and petroleum hydrocarbons in the pilot test area will be performed.	NOD	
2000062082	Grey Eagle Mine Reclamation Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Happy Camp--Siskiyou Noranda Grey Eagle Mines Inc. proposes to pum lime slurry into the historical mine workings as part of the water treatment program. This action is expected to reduce the production of acid waters and coincident solubilization of metals, primarily copper, that is occurring in the historical mine workings.	NOD

2000088092	654 Center Street Streambank Stabilization Project, Walnut Creek, Contra Costa County Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Walnut Creek--Contra Costa Streambank stabilization Project. Previous owner excavated site to install a retaining wall. Loose soil was spilled on the outside of the creek bank side of the wall. These soils are highly erosive and have sloughed into the creek over the years.	NOE	
2000088093	Willow Creek Culvert and Tide Gate Replacement Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Pittsburg--Contra Costa The replacement of two culverts and tide gates beneath a levee separating Willow Creek from the Sacramento River at Suisun Bay. The existing culverts have partially failed, preventing adequate creek flow into the river. The project would involve the temporary installation of sheet piles to isolate the construction area for dewatering (approximately 930 square feet total).	NOE	
2000088094	Issuance of Streambed Alteration Agreement R2-301-00 Fish & Game #2 --Contra Costa Partial repair and replacement of existing bulkhead on waterfront property (90 linear feet).	NOE	
2000088099	Investigation Division Office-Norwalk Equalization, Board of Norwalk--Los Angeles The Board of Equalization proposes to lease approximately 5,618 square feet of office space for the Investigation Division Office Norwalk.	NOE	
2000088110	Stanislaus River Salmonid Habitat Improvement Goodwin Canyon Gravel Fish & Game #4 --Stanislaus It was determined through evaluation that several previously restored spawning gravel sites in the Stanislaus River reach below Goodwin Dam had diminished over time. The proposed work is to replenish the spawning gravel to these sites to continue to provide necessary habitat for anadromous fish.	NOE	
2000088112	Acquisition Of Parcels General Services, Department of Redding--Shasta This proposed action is limited to the acquisition of property. The Department of General Services and the Department of Justice are proceeding with negotiations to acquire approximately 1.4 acres for a proposed forensic laboratory at this site. The laboratory will be the subject of an environmental document. The property will remain in its existing condition until the environmental review process has been completed and the development project is approved.	NOE

<u>Documents Received on Monday, August 14, 2000</u>			
2000088162	Restoring the Flood Capacity and Natural Function of a reach of Pool Creek Fish & Game #3 Windsor--Sonoma Debris removal and selective willow growth removal along approximately 1600 feet of Pool Creek. Issuance of a Streambed Alteration Permit (R3-2000-0615) pursuant to Fish and Game Code section 1603	NOE	
2000088163	Issuance of a Streambed Alteration Agreement R2-173-00 Fish & Game #2 --San Joaquin Five year maintenance agreement for the removal of sediment, debris and vegetation within six drainage channels.	NOE	
2000088164	Dry Routine Maintenance Fish & Game #7 --Inyo, Mono Perform channel maintenance activities to facilitate water flow within the system by cleaning vegetation, from the dry channel and bank from the identified inlets and spillway ditches and outlet boxes from dry streambeds as described in the submitted notification. Clean the ditch banks of flow restricting vegetation in the same area. Perform silt and sediment removal in the same areas. Very basic "routine" maintenance would include cleaning sediments, vegetation, debris or trash out of dry culverts, drop inlets and/or dry inlet and outlet ditches. A little more involved, but not occurring very often, would be replacement of failing or undersized culverts, again though, only under no flow conditions.	NOE	
2000088165	Dell Water Storage Pond Fish & Game #7 Bishop--Inyo Maintenance and upkeep of an existing 35' X 35' pond with depths from 2 to 4 feet. The pond holds approximately 40000 gallons of water.	NOE	
2000088166	Flatcar Bridge Installation on the North Fork of the Gualala River Fish & Game #3 Gualala--Mendocino Annual installation of a flatcar bridge across the North Fork, supported by brow logs on both banks. Issuance of a Streambed Alteration Permit (R#3-2000-0073), pursuant to Fish and Game Code section (1603).	NOE	
2000088167	Rape Crisis Center San Pablo, City of San Pablo-- The nature and purpose of the project is to allow the Rape Crisis Center to operate its program in a commercial/office building that was formerly occupied by the Social Security Administration. The beneficiaries include residents of San Pablo and the neighboring communities.	NOE	
2000088168	Construct New Siding and Two Siding Extensions within Union Pacific Railroad Caltrans #3 Elk Grove, Galt--Sacramento The project proposes to construct siding extensions within UPRR existing right of way. The purpose is to add passing track and sidings to accommodate extensions of passenger rail service from Stockton to Sacramento.	NOE

2000062153	<p>Laguna Stonelake Sewer Force Main - Phase 2 Sacramento County Elk Grove--Sacramento</p> <p>The proposed project would extend a 12-inch diameter sewer force main from the southern boundary of the SRCSD property for about 3,300 feet north to Sims Road. The work begins at a channel crossing of a concrete lined man-made open channel. From there it runs north parallel to the UPRR track. The first 300 feet run through a paved water storage tank site. The remaining 3,000 feet of force main runs through SRCSD buffer lands. At Sims Road the force main discharges to a 21-inch gravity sewer line that crosses under the UPRR tracks and connects to a 33-inch gravity line. An odor control station will be installed to treat any gases generated at the point of discharge. The odor control station will be located 1,600 feet west of the discharge point to the odor control station. The odor control station will be a package system approximately 10 feet wide by 25 feet long. A blower will pull air through the air duct and run it through biofiltration modules. The unit will require approximately 10 gallons of water per day, and will operate continuously.</p>	NOD	
2000089045	<p>Doolan Creek Bank Amoring Fish & Game #3 --Mendocino</p> <p>The applicant proposes to place 136 cubic yards of rip rap interspersed with willow stakes to stabilize the banks of Doolan Creek to protect a new subdivision from potential flood waters. The project is located at 1175 Mulberry Street, City of Ukiah, Mendocino County. The CDFG is executing a Lake and Streambed Alteration Agreement (#0181-99) pursuant to Section 1603 of the Fish and Game Code to the applicant, Duane Hill/Rural Community Housing Corporation.</p>	NOD	
2000089046	<p>Hyatt Hotel/Bacara Resort and Spa Foot Bridge Fish & Game #5 --Santa Barbara</p> <p>CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Tynan Group. The applicant proposes to construct a foot bridge over Tecolote Creek. The project is located in Goleta in Santa Barbara County.</p>	NOD	
2000088180	<p>Alpine Road Restoration Road Project Fish & Game #3 Portola Valley--San Mateo</p> <p>The applicant proposes to repair 12 erosion sites varying in length from 50 to 180 feet along Alpine Road, and install drainage culverts that will drain runoff into the channel or onto a channel bench. Issuance of a Streambed Alteration Permit (#R3-2000-0672) pursuant to Fish and Game Code Section 1601.</p>	NOE
